NZ HEALTH TECH ECOSYSTEM PATHFINDER

Version 7

This HealthTech Ecosystem Pathfinder displays all of the key players within New Zealands health innovation ecosystem.

This is not an exhaustive list and only covers the primary functions of each organisation.

This pathfinder is aimed towards people who are navigating the commercialisation process of health innovation technology and need help identifying who is available in each category.

Line (Category) Definitions

PRIVATE INVESTMENT LINE

Venture capital, angel investor and private equity firms in New Zealand that invest in health technology companies - as mentioned in the TIN report 2020.

GOVERNMENT INVESTMENT LINE

The major opportunities for government funding/investment.

ACCELERATORS AND INCUBATORS LINE

Accelerators and incubators that specify in or have previous experience in health innovation/medtech companies.

NETWORKS AND RESOURCES LINE

New Zealand based health innovation networks. This may be directly in research and development or relevant to the process e.g. funding, education etc.

MĀORI AND PASIFIKA LINE

Organisations that support Māori and Pacific engagement with the healthcare system and work to reduce health inequities.

HOSPITAL INNOVATION LINE

Innovation and improvement organisations within hospitals.

PUBLIC + PRIVATE HOSPITALS LINE

Te Whatu Ora four regions and major private hospitals in New Zealand.

CLINICAL TRIALS LINE

The major clinical trials organisations within New Zealand including CRO's, University based and hospital based.

RESEARCH LINE

Research organisations and groups that are or have previously conducted research activity in health innovation and technologies.

EVENTS LINE

Key events with relevance to health innovation that would be of benefit for early-stage research groups/companies to attend.

REGULATIONS LINE

Organisations that provide regulations services and advice within the health innovation sector.
